Photo 8: The Swiss Consul General Mr Othmar Hardegger, took part in the festivities. Here he holds his speech.

Photo 9: Group picture with Consul General and his wife. At the ceremony

Figure 4: A group of blue, brown B group, C group green, D group Orange 12 new apprentices of the D group.

The profession Polypraktiker, 66.5% mechanics, 33.5% Electrical.
On 12.06.2013 it has approved the project, the vocational training ministry in Hanoi.
On 29.06.2013 it has approved the project at school, the Ministry of Agriculture in Hanoi, where we = our training workshop with six rooms a 150 m / 2 have almost 1000 m / 2. Equipment and inventory were buried up by us from Switzerland. The majority of Swiss and European machine tools.

On 09/05/2013 has the education office of Dong Nai province, where we have our training workshop, also approved as a last resort. Thank you.

We thank the authorities. We thank our coordinator Le Tung Hieu.

We thank the director of our school in the province of Dong Nai Mr Bang for the work done to obtain this permit.

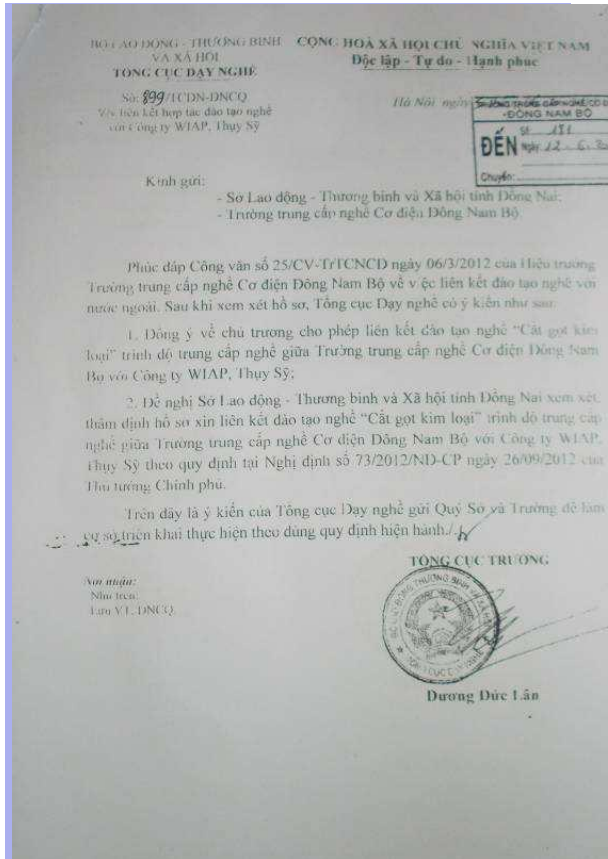

We will now strive to be one of the first school, which will also be able to manufacture machine tools themselves the goal. It will be one of the biggest challenge for the students as the teacher if something can be done. We will in any case all our force is available, work to ensure that such a thing is possible. Thanks to everyone for all the support. One of the main objectives but will be that we can train top teachers that the project can be started in several places in the world. For that reason, all training materials for this are created.

Figure 7: This was the promise of Ausbildungsrechtes on 08/09/2013

Message:09/08/2013 iris and Hans-Peter Widmer

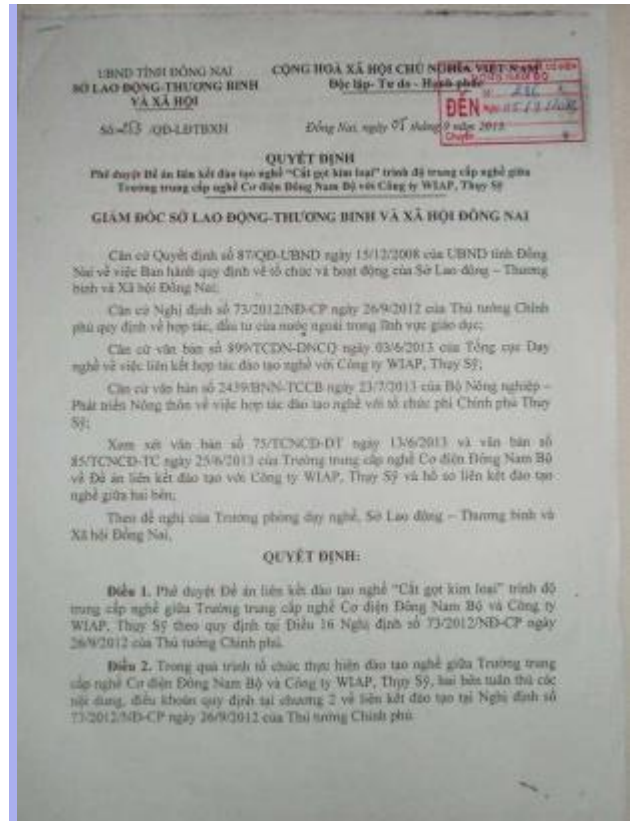

The training project wk WIAP KFKOK was also approved in Vietnam from the last instance.

It's about the dual education system.
