MEMV[®]

International staff training in machine construction

Introduction: The WIAP has developed a new machine tool maintenance and serial system program. The control system WIAP MEMV.

Diploma System WIAP MEMV The WIAP trained apprentices in Switzerland, Angola and Vietnam to the Swiss dual education system. Germany, Austria, Korea and Japan have a similar type of education system. Practical work, Part-time with theory.

Education diplomas WIAP System

Figure 1: People / skilled workers in training at WIAP adults primarily training 4 maintenance people and 35 Berufssleute / machinists and 8 CNC skilled workers were eye forms in Angola after the system WIAP

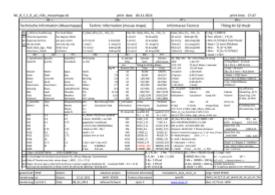

Figure 3: training leaves. Lots of information, mouse solution. About 1000 sheets are in the teaching program of WIAP
